Carbide Guards To Be Given Rifle Training On New Range

Courses in rifle marksmanship now are being given members of the Guard Departments of the three Carbide units in Oak Ridge to train the men in meeting any possible emergencies. The courses opened last week on the new rifle range constructed in the western end of the Oak Ridge controlled area in territory lying between the Bear Creek and White Wing Roads and the

The rifle range area will be thoroughly posted with warning signs and all Carbide employees will be Given At Seminar and the public at large is warned to stay away from the vicinity, especially when firing is underway. Several secondary roads through the range area probably will be blocked off during firing

periods. The range is equipped with 10 targets with firing posts placed at 300 yards. The target protected with concrete revetments in addition walls. Beyond the target area is a 4,300-yard danger and another added safety is provided. Rooms are provided in the pits for target storage

and other uses. Many Veterans Can Help

All members of the guard forces Y-12, K-25 and the Oak Ridge given instruction in handling rifles and machine guns. The training is expected to be expedited by the fact that numerous members of the Guard Departments are veterans who received similar train-

ing in service. In addition to the Carbide personnel members of the Atomic Energy Commission patrol also will use the range for training.

AEC MOVE PLANNED

Washington newspapers report that the government dispersal program calls for moving the entire headquarters staff of the Atomic Energy Commission to a site within 20 miles of the White House.

Scientists attending the weekly meeting of the Oak Ridge Physics Seminar Friday afternoon, June 8, will hear "A Report of the Harwell Nuclear Instrumentation Conferences," by P. R. Bell, of the Oak Ridge National Laboratory physics division. The report covers many phases of a recent meeting of atomic energy scientists from the United States, Canada and Great Britain held at Harwell, England, site of Great Britain's atomic energy labora-

The meeting will be held at 4 o'clock in the East Lounge of the Ridge Recreation Hall.

Y-12 East Portal Camera Club Soon Will Have New Parking Lot

Room For 178 Vehicles Planned; Temporary Space Being Prepared

Here's some good news for Y-12ers who park at the East Portal lot. The area there will be paved and marked off in a manner similar to the improvement made last year at the North Portal park-

The Y-12 Engineering Division has completed plans for the new parking lot and bids will be received and opened by the Atomic Energy Commission on Monday, June 18. After the contract is awarded a period of 70 days will be allowed the successful contractor for completion of the project. Angle Parking Provided

Parking space for 178 vehicles will be provided in the new parking area at the East Portal. Plans call for parking to be on a 45-de-gree angle and each parking space will be eight feet wide. The road surface will be of asphalt, as will Concrete curbs are plan-

ned for the work. During the construction period temporary parking facilities for Y-12ers using the East Portal vicinity for leaving their cars will be provided in an area north of the present portal and back of the present garage, Bldg. 9712. This area is bounding on the east by the present Y-12 perimeter fence and on the west by the fence surrounding the Elza electrical sub-

station. Entrance to this area will be provided from the Bear Creek Road with the entrance to be open from 6:30 a.m. to 5 p.m. A Guard Department post for checking badges will be established in the temporary fence on the south side of the parking area. This checking station will replace the present East Portal checking point during the construction period and will be discontinued when the new parking lot is completed.

INDIA PLANS ATOMIC PILE

A recent Reuters News Agency report says that Sri Praskasa, minfor natural resources and scientific research in India, has announced that nation will set up an atomic pile. Its purpose would be to manufacture radioactive iso-

To Have Movie, Driving Permits Stage Contest

Members of the Carbide Camera Club, composed of employees in all of the Oak Ridge units of the Company, will be treated to a color movie "Tennessee Vacation Land," at the regular June meeting of the club set for 7:30 o'clock next Tuesday night, June 12. The meeting will be held in club head-quarters in the Y-12 East Portal building.

The movie will be presented by H. M. Scott, of the Standard Oil Knoxville. It has been in great demand and widely shown throughout the state. The picture runs about 30 minutes.

In addition to this feature of the program a contest will be held for black and white prints. The subject will be scenes in and around Oak Ridge.

Frank Gordon, of Y-12, is custodian of the club's dark room for the month of June. Any members of the club wishing to use the dark room euipment should make reservations with Gordon and then obtain the key from the guard post at the North Portal. His home telephone number is 5-7319

and he can be reached at plant telephones 7376 or 7645.

AIChE, Instrument **Groups Meet Tonight**

An interesting joint meeting of the Oak Ridge units of the American Institute of Chemical Engineers and the Instrument Society of America that is expected to draw many Y-12ers will be held at 7:30 o'clock tonight. Wednesday, June 6, at the Knights of Columbus Hall, Jefferson Circle,

Oak Ridge. David M. Boyd, a former Oak Ridger and now with the Univer-sal Oil Products Co., will be the principal speaker at the joint meeting. He will speak on "Instrumentation and Operation of Catalytic Cracking Unit." In his talk Boyd will have a

glass model of a catalytic cracking unit to illustrate his address. The discussion will include graphic panel instrumentation.

BOOM IN COUNTERS

The New York Times reports Sydney, Australia, that a scientific equipment store is doing topes which India now imports a good business selling Geiger from the United States and Great Britain.

a good business selling Geiger Counters for \$131.20 to persons seeking uranium on holidays.

Must Be Renewed **Tennessee License** Needed Before U.S.

Government, State

Authority Is Granted The existing Government "mo-tor vehicle operator's permit," held by many Y-12 employees, will expire on June 30. This date coincides with the expiration date of

the state of Tennessee operator's

license. No New Tests Needed

All employees who will require Government permit on or after July 1 must first obtain a new Tennessee license before applying for renewal of the Government permit. When the state license is obtained it must be submitted obtained it must be submitted with the old Government permit at the Y-12 Safety Office, Bldg. 9704-2, and a new Government permit will be issued. No additional driving tests will be required for the new Government permit.

The state of Tennessee operator's licenses for the next two years now are on sale at the office years now are on sale at the office of the deputy county clerk of An-derson County in the building back of the Oak Ridge police sta-tion and facing Bus Terminal Road. The licenses will cost \$2 for drivers of passenger automobiles for the two-year period, an increase of \$1 cver the cost in previous years.

When Licenses Can Be Bought

This office will be open for drivers to purchase their operator's licenses during the usual hours of 9 a.m. to 5:30 p.m., Mondays through Fridays, and from 9 a.m. to noon on Saturdays.

All Y-12ers who require either the state licenses or the Government permits are urged to obtain them as quickly as possible to avoid any last minute rush. It is stressed that both the present state and Government permits expire June 30 and must be renewed before that date as they will not be regarded as authorization for operation of a motor vehicle after that

'South Pacific' Tunes Feature CurtainTime Program Sunday

show "South Pacific," playing to sell-out houses for months ahead in New York, will be presented in the Curtain Time radio program Sunday night, June 10, over Oak Ridge Station WATO. The program, sponsored by Carbide, runs from 8:30 p.m. to 9 p.m.

National Laboratory are to be objected by the la In Practicing Safety; Corporation Records Tops In Industry

Fred H. Haggerson, president of Union Carbide and Carbon Corporation, has paid tribute to all employees of the Corporation's many units in their efforts in accident prevention. In the "UCC Annual Accident Report — Year 1950," Mr. Haggerson says.

"It is gratifying to note that our Corporation's rates for the number and seriousness of accident during 1950 were from 50 to 70 per cent below those for United States industry as a whole.

"This is a tribute primarily to need this year for individual atthose who are nominally responsible for safety in the Corporation's groups, plants and offices. Their leadership, however, would have had little effect if the individual people of the Corporation had not cooperated as they evidently did. They deserve commendation for assuming individual responsibility

"With the accelerated production and other activities of the Corporation, there will be even greater

tention to safety. Those who are responsible for the design of plants, the installation of equipment and the development of processes will continue to give every thought to safety for the protection of our people. The human element remains. Each one of us, then, must let a powerful consciousness of safe practices govern every move we make-for our own sake, as well as for the safety of our fellow employees and the welfare of our families at home.

Carbide Names Law, Johnston Research Heads

Dr. Johnston

Dr. Law

The appointments of Dr. George H. Law as Director of Research, and of Dr. Franklin Johnston as Assistant Director of Research, of Carbide and Carbon Chemicals Company, a Division of Union Carbide and Carbon Corporation, have been announced.

With Company Since 1929

Dr. Law was graduated as a chemical engineer from Lehigh University in 1926, and in 1929 received his Ph.D. from Yale University where he specialized in organic chemistry. He has been employed in the research work of the Company ever since then. In this work he has been active in the development of a large number of new products, especially insecticides, fungicides, and herbicides, and of intermediates used in the pharmaceutical industry. He was also prominent in developing a new process for producing ethylene glycol, the well-known permanent anti-freeze.

Dr. Johnston is a graduate of the University of Missouri and received his Ph.D. from Pennsylvania State College in 1933. He also specialized in organic chemistry and also has been employed in the research work of the Company since he completed his graduate studies. Since 1938 he has a research group leader at the Company's Research Center in South Charleston, W. Va. Dr. Johnston has been particularly active in the fields of organic acids, plasticizers, and hydrocyanic acid derivatives. Among the latter is acrylonitrile, an important constituent in the Company's new synthetic fiber, dynel.

Dr. Law Succeeds Dr. Perkins

As Director of Research, Dr. Law succeeds Dr. Granville A Perkins who recently named Vice President in charge of Research for Carbide and Carbon Chemicals Company in New York. Dr. Law also will make his headquarters in the Company's New York office will spend considerable in South Charleston. Dr. Johnston, who succeeded Dr. Law, will continue to make his headquarters in the South Charleston research laboratory where basic research and development work is being done on synthetic organic chemicals, plastics, and synthetic fibers

REDS INVITE INDIANS

Reuters News Agency recently reported that Russia has invited 24 prominent Indians to make a tour of Russia's industrial, medical and educational facilities. Among those invited was India's chief atomic expert, Dr. Homi J. Bhabha.

band and daughter are vacationing in Memphis and Union City, Tenn. They plan to spend a lot of time fishing on Reelfoot Lake.

Arthur Brewer, of Research Engineering, spent last week's vacation at home in Knoxville . . . P. W. G. Nielson spent last week vacationing in Washington, D. C. H. L. Martin and Floyd Downs,

of Plant Engineering, were on the vacation list last week . . . The department is sorry to lose William T. Clark, Jr., who is scheduled to leave for the Air Force soon.

David Crouse, of the Material Chemistry Division, visited his folks in Pennsylvania while on vacation last week . . . Tom Mackey and Claude Haws spent most of their time fishing over at Fontana, N. C. while vacationing last week. Instead of taking that vacation trip to New Orleans, F. L. Daley landed in the Oak Ridge Hospital last week for an appendix operation . . . Al Palko was on vacation last week . . . The Ed Greeleys went to Martel on a recent Sunday to visit Mildred Swan, who is on the sick list. They report that Mildred is getting along fine.

Leo Caldwell, of the Isotope Research and Production Division, is visiting relatives in Mississippi, while on a two-week vacation . . . W. W. Davis spent most of his time fishing around Norris while vacationing last week . . . T. B. Wilson is vacationing at Nags Head, a resort in North Carolina, this week . . . T. J. Stephens is visiting relatives

in Georgia while on vacation this The department extends congratulations to the Harold Walchlis who became the proud par-ents of a baby boy born on May 30, at the Oak Ridge Hospital and weighing seven pounds.

in the Electromagnetic Research Division they are calling him Motor Magnate Al Boch now. Seems as how Al did considerable and speedy automobile trading recently—swapping a 1949 job for a 1951 model and then within a week he bartered the new vehicle for an even newer one. Bruce Stockbridge, a fellow employee, time out to draw cartoon of the proceedings (see bottom of

Henry Krouse, of the Fire Department, and his family are visiting relatives in Virginia while on vacation this week . . . Charlie Huffman and his wife journeyed down to Nashville, Tenn., while vacationing last week.

J. D. McGuffin, of the Stores Department, is on vacation this week. Dollars to doughnuts he is spending most of his time over at Norris Lake, fishing . . . The department extends sympathy to J. R. Bayless, whose father died in Knoxville, on May 25 . . . A hearty

Athala Markland, of the Super- welcome is extended to Eva Gilliintendents Department, her hus- land, a new addition to the roster.

Folks around Y-12 don't hear much about-or from-J. R. Russell, of the Guard Department Russell is a quiet chap and a close student of the art of angling. He knows his bait and where the big ones lurk-and so unlike a lot of fishermen, he passes the information along to friends in Y-12 who get all the publicity for their catches. Russell is on vacation this week and will spend some time visiting friends and relatives at Kingsport, after which he will alternate wetting lines in Ft. Loudoun, Norris and Douglas Lakes.

Penny Keene, of Medical, and her husband, Oliver, of the Property Department, are vacationing in St. Petersburg, Fla., this week. Joy Huffstetler is vacationing home in Oak Ridge this week to help her husband entertain his folks, who have come in from New Mexico for his graduation from the University of Tennessee. . . Barbara Jackson spent the week end in Gatlinburg.

Don Ross, of Health Physics and

Hygiene, and his family are visiting friends and relatives in Kentucky while on vacation this week. The department welcomes Robert F. Green.

Noah Ensor, of the Property Department, is on a week of va-

O. C. Hartman, of Manufacturing Office, and his family are spending a week of vacation in . Helen Cunningham is on vacation this week.

Tom Burkett, of the Personnel

Department, went down to Miami, Fla., last week to move his family to Oak Ridge.

Louise Bond, of the ANP Division, and her husband are spending a two-week vacation in Jackson, Miss. . . . Anne Forbes has returned from a week's vacation spent in Washington, D. C., and New York.... The division wishes Vivian Gordon, who terminated last week, the best of luck. . . . And get-well wishes are extended to Kit Martin and Mary Lee, who

are still on the sick list. J. H. Humphrey, of Maintenance Utilities, is on a two-week vacation. . . . F. D. Robinson is vacationing this week at home in Loudon. . . . C. D. Langley and J. C. Yarber have returned from

The Chapel-On-The-Hill will be the scene of the wedding Saturday night, June 9, of Miss Rella Murr, of the Y-12 Product Chemical Department, and Alan C. Bates. The ceremony will be performed at 6 p.m. by the Rev. Frank Porter.

The bride-elect is the daughter of Mr. and Mrs. David Murr, of Loudon, Tenn. Parents of the groom are Mr. and Mrs. E. Graham Bates, of Auburndale, Mass.

Miss Murr will be given in marriage by her father and nuptial music will be provided by John P. Wood, organist.

At her wedding Miss Murr will wear a gown of Chantilly lace, fashioned with an off-shoulder@bertha, fitted bcdice and long pointed sleeves. The full skirt worn over crinoline will form a court train. Her bridal bouquet will be of white roses centered with a white orchid and the veil of illusion will be held in place by a Juliet cap of lace embroidered with seed pearls.

Mrs. Connie Baker will be maid of honor and other attendants will be Miss Virginia Sanderson, Miss Grace Meek and Mrs. Irene Fiser. Their orchid-colored dresses will be of net, strapless with a fitted bodice and matching capes. The full net skirts will be worn over crinoline. The attendants will carry yellow roses.

James J. Broderick, of Bound Brock, N. J., will be best man and ushers will be John R. Fiser, of Oak Ridge; and Lindsay Russell, of Boston, Mass.

Immediately following the ceremony a reception will be held at the Ridge Recreation Hall.

The bride-elect is a graduate of Loudon High School. Bates graduated from the Massachusetts Institute of Technology.

CURREY—WEAVER

Mr. and Mrs. Raymond Currey, Sr., of Oak Ridge and Florence, Ala., have announced the engagement of their daughter, Miss Annie Rooney Currey, to William R. Weaver, of Oak Ridge and Toledo, Ohio. The wedding will be solemnized during the middle of

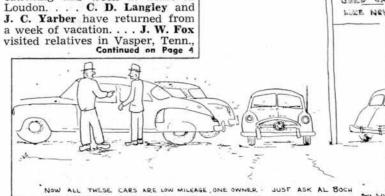

The bride-elect is a junior mathematician with the ANP Division in Y-12 and the groom is employed by Kaighn and Hughes, Inc., as a mechanical engineer.

Miss Currey graduated from the Coffee High School and received a B. S. degree from Alabama Polytechnic Institute, Auburn, Ala. She was a member of the Alpha Omicron Po sorority, the women's student government and other campus organizations.

Weaver is a graduate of the Bucyrus High School at Toledo and received a bachelor of engineering degree after attending John Carroll University and the University of Toledo. He was a member of the Chi Rho Nu fraternity and served in the Navy Air Corps during World War II.

Motorist: "I'm sorry I ran over your hen. Would you settle for

Farmer: "Nope, \$4. Got a rooster that was mighty fond o' that hen. Might die o' the shock."

Miss Annie Rooney Currey

STOOKSBURY - HILL

Miss Mildred Hill, daughter of Eugene Hill, of the Y-12 Field Maintenance Department, and Mrs. Hill, was married Friday afternoon, June 1, to Roy H. Stooks-The ceremony was performed at the home of the groom's parents, Mr. and Mrs. Perry Stooksbury, at Clinton, Tenn.

The couple will reside in Detroit, Mich., where the groom is em-

Community Playhouse Meet Has Interest For Y-12ers

Several Y-12ers and members of their families will be active at a meeting of the Oak Ridge Community Playhouse at 8 o'clock next Monday night, June 11. The meeting will be at the playhouse headquarters, Robertsville and Seneca

Charles Blake, of Y-12, has been nominated for membership on the playhouse board of directors for the election Monday. He also will direct a cne-act play at the meeting in which Mrs. Dana Estabrook and Mrs. Maxine Nielson, wives of Y-12ers, will perform. It also has been announced that tryouts for a melodrama, to be presented by the organization in July, will be held June 6, 7 and 8, Wednesday, Thursday and Friday nights of this week at the playhouse. All Y-12ers interested in trying out are invited to be present.

The following Y-12 employ were patients in the Oak Hospital last week: Robert Mc-Kinney and Harry A. Keen, Product Chemical; Lloyd O. Huiting, Floyd L. Roberts and Winfred E. Bullock, Guard; George L. Miller, Product Processing; Mary F. Williams, Janitors; John B. Gray, Field Maintenance; and Jack W.

One Y-12 employee was listed as father of a baby girl born last week at the Oak Ridge Hospital. He is Wilfred T. Ward, Materials Chemistry Division.

49ers Take Plant Loop Lead; First Half Ends Next Tuesday

Race Still Closely Bunched As Last Lap Nears; **High Scores Continue To Feature Competition**

By winning both of their games last week the 49ers took over undisputed possession of first place in the Plant Softball League as the loop race began to take definite form. Following the league leaders came the Orphans, Bldg. 9212 and Isotopes. High sccres by winning teams continued to mark league play with the pitchers having a tough

Four Y-12 Sailing **Boats Are Entered** In Squadron Events

The sailing division of the Oak Ridge Power Squadron will open its summer racing program at 2:30 o'clock Sunday afternoon, June 17, on Fort Loudoun Lake off the Concord docks. A program of 10 races on alternate Sundays will be staged throughout the summer, the opening program being fol-lowed by races on July 1, 15 and 29, August 12 and 26, September 9 and 23 and October 7 and 21.

Four Y-12ers have entered boats in the events, which are staged on a handicap basis. They are George Lockhart, 1950 handi-cap sailing champion; Bob Schroder, Frances Gillian, piloting the Girl Scout craft; and Gus Angele. Angele is commander of squadron.

Y-12 Slow Pitch Softballers Play AEC Team Wednesday

The Y-12 slow pitch softball team will be seeking its first vic-tory of the season at 6 o'clock tonight, Wednesday, June 6, when it engages the Atomic Energy Commission nine at Midtown Park. This game will be one of four played in the loop, the others starting at one-hour intervals beginning at 7 2 clock ginning at 7 o'clock.

The next game for Manager Tom Niemeyer's slow pitch Y-12ers will be at 7 o'clock next Wednesday night, June 13, against the Jewish Congregation.

Jonesboro Women Beat Robins, 4-2

In an exhibition softball game at Jonesboro Saturday night the Y-12 Robins were beaten by the home town team by 4 to 2. Helen Aikman pitched for Y-12.

Y-12 Netters Meet Lab On Thursday; Beat AEC By 5 To 2

The Y-12 men's tennis team will be out to avenge an earlier defeat handed them by the Oak Ridge National Laboratory netters when they tackle the Lab Lobsters tomorrow afternoon, Thursday, June 7, on the Jefferson courts. The Y-12ers primed themselves for this engagement by handily trimming the Atomic Energy Commission racqueteers a 5 to 2 defeat last Thursday, taking four singles and one doubles match. Nathan Smith got a slow start

for the victors but rallied to beat D. S. Zachary 3-6, 7-5, 6-3. Other Y-12 winners in singles were Allen Hodges over R. C. Brothers 6-0, 6-2; Fred Hurst over M. J. Cromer 6-4, 6-2; and B. Capehart over H. Behrman 6-4, 6-4. C. E. Hill took the lone AEC singles triumph by beating Ed Sing 6-3, 6-2. Ross and Wells, of Y-12, beat Vallado and Lee 6-2, 6-3; but the AEC team of Woodruff and Pollack beat Moore and Murray 3-6, 6-3, 6-1.

ORNL Golfers Capture First Inter-Company Engagement

Final tabulation of the scores in the inter-company golf matches staged Sunday, May 27, at the Oak Golf and Country Club showed that the divot diggers of the Ridge National Laboratory nosed cut Y-12 for first place by the slim margin of 24 points. The Labsters scored 152 points, Y-12 176, Business Men 182, AECEA 205, Roane-Anderson 222 and K-25 239

The top Y-12 scores were Dorr 80, Meece 83, Bauman 84 and Olson 88.

The next inter-company match will be played July 22 and the final will be staged September 23. The team with the best low ag-gregate score for the three matches will receive a handsome trophy. ORNL took the title last year while Y-12 captured first place the two previous years.

Elated by a clean sweep of victories during the past week the Y-12 baseball and softball teams will be laying for foes to be met on the friendly Oak Ridge dia-monds during the next several days. All three outfits have weekend games at home and Y-12 fans are urged to scan the schedule at the top of the column and make plans to turn out and root for the Cards, Redbirds and Robins. Four Vols Join Cards
The Cardinals acquired some

more strength last week when four University of Tennessee players took jobs at the plant and started playing for the red and white. They were B. B. Hopkins and Bill Asbury, both members of last year's team; Johnny Huffstetler, southpaw hurler who topped the Southeastern Conference in the 1950 season; and Billy Jo O'Kain, another pitcher whose father works in Y-12. Hopkins' dad, C. B. Hopkins, also is a Y-12er.
Huffstetler pitched the Cards to

a 5 to 0 shutout over Oak Ridge National Laboratory on May 29, allowing only two hits. He fanned 12, walked six and got a safe hit. The Cards swiped six bases and took advantage of seven Lab errors

Wiegelt, Addison Hit Triples O'Kain opened for the Cards against Mascot at Gamble Valley Saturday night and got credit for the 4 to 3 win. He whiffed 10 before giving way to Hawkins in the seventh. Wiegelt and Addison were the big stickmen for Y-12, each banging triples. Hawkins

struck out four during his three innings on the hill. The third straight for the Cards was gained Sunday when Paddy Peckman stopped Rockford with seven hits and his mates knocked out an 8 to 5 victory. The game was called after seven innings because of heat. Simmons was the big shot for Y-12, participating in two double plays and getting two for three. Triples were swat-ted by Guttery and Wiegelt for

Softies Get Twin Wins

The Redbirds and Robins turned n a double header victory for Y-12 last Friday night, the men softballers trimming Maryville by 3 to 2 and the girls taking a weird one from K-25 by 10 to 9. The Redbirds got but three hits off Spears but bunched them in the fifth for all their runs in an extraordinarily well played game. Ed Sise hurled for the Y-12ers.

Each of the feminine teams had

Golfers Of Y-12 Defeat K-25 Linksmen In Match

The Y-12 plant golf team took a 161/2 to 71/2 win over the K-25 linksmen in a Smoky Mountain Golf League match at Oak Ridge Sunday. It was the second league win for Y-12.

Dorr led the victors with a 75, followed by Bauman with 80, and Lavers with 83. Y-12 wins were turned in by Bauman 3, Karlsmith 0, Dorr 3, Petruzzi 0, Ludwig 2½, Duty 1/2, Elmer Olson 2, Gordanier 1, and Lavers 3, M. Olson 0. For K-25 Owen beat Shugart, Carter topped Cater and Marlino licked Tiller, each score being 2 to 1.

and part of a string of 62 crappie landed recently in Watts Bar Lake. The grown-ups are Em-mett Moore, right, of the Fire Department; and Sam King, of Electrical Maintenance. were aided by King's two sons, Henry and Sam, Jr.

Divots Continue To Hold Top Spot In Y-12 Golf Loop

The Divots eked out a one-point victory by 171/2 to 181/2 over the Rough Riders to maintain a substantial lead in the Y-12 Golf League last week. The remainder of the race remained tight with a number of ties existing down the standings.

In other matches last week the Deacons won their first tilt of the season by blasting the Four Hundreds by 12 to 24 and climb into a tie for last place with the Four Woods, who lost to the Hooks by 131/2 to 221/2. The Rippers took the Green Rays by 15 to 21.

Open League Action Tonight

Three Y-12 bowling teams will roll in the opening night activities of a summer bowling league composed of teams from Y-12 and five from K-25. The league will roll every Wednesday night at the Oak Terrace alleys.

Y-12 teams competing are Bldg. 9212 with Bill Burns as captain, the Activators head by J. P. Ross and the All Stars under leadership of Morris Bailes.

bad nights afield with five errors but the K-25 lassies outfumbled the Y-12ers to hand them the win.

In an earlier game last week the Redbirds invaded Knoxville to beat Vine Avenue by 4 to 1 with all runs for both teams scored in the last inning. Bobby Loy hurled for Y-12 and allowed but two hits.

Johnsson and Mrs. Robert Dustin.

Magazine Outlines Physical, Chemical Properties of Women

The magazine "Chemical World" comes out with this definition of a ton, telephone 7446 or 7358. woman--

Symbol-WO. Member of the human family.

Specific Gravity - Molecular structure extremely variable.

Occurrence-Can be found anywhere man exists.

Physical Properties - All sizes and shapes. Generally appears in nothing and may freeze at any specimen.

Rides Wanted And Offered

RIDE WANTED-From Clinton, straight day shift. Nyra Harring-

moment. Ordinarily sweet, occasionally sour and sometimes bitter.

Chemical Properties — Exceedingly volatile, highly flammable and dangerous in the hands of an inexperienced male. Possesses great affinity for gold, silver and precious stones of all kinds. Capdisguised condition, natural sur-faces rarely free from extraneous coverings of textiles or film of grease or pigments. Melts readily left alone. Turns green when when properly treated. Boils at placed next to a better-appearing

Get Big Reshuffling

The lead in both the Major and Minor Leagues in attendance standings were considerably shuffled during the week ending May 27 as compared to the previous week. The plant-wide record of absenteeism remained the same for the latest reporting period, being 2.4 per cent.

Research Services "All Present"

In the Major League Research Services advanced from second place to first place for the week ending May 27 with a perfect attendance record. Stores advanced from eighth place to second and reported an absentee rate of .6 per cent. In third place for the second week was Plant Engineering which had .7 per cent of its personnel absent.

In the Minor League only four departments reported "all present" for the week ending May 27, and of this number there was but one repeater. This was the Steam The other three were Superintendents, Employee Relations and Maintenance Utilities. They were in third, fourth and fifth the preceding week.

Two Make Big Advance

Second place in the Minor League went to the Laundry with .5 per cent of absenteeism and third place was taken by Property Sales with .8 per cent of its employees absent. These two departments rose from 11th and 12th positions held during the week ending May 20.

The plant-wide absentee record for the week ending May 27, by departments, follows:

cent, .2 per cent higher than the preceding week.

The plant average for the week ending May 27 was 2.4 per cent, remaining the same as the preceding week.

Dodgers Play K-25 Thursday, Hope To Remain Undefeated

The Y-12 Dodgers, Negro baseball team of Y-12, will endeavor to continue their winning streak intact without a defeat when they tackle the strong K-25 nine at 7:30 o'clock Thursday night, June 7, at the Gamble Valley park. The Y-12ers beat K-25 previously by 6 to 2 and the West End boys will

be out to avenge this loss.

Last Wednesday the Dodgers defeated Oak Ridge National Laboratory by 14 to 10 with Rogers Deatheridge being the winning pitcher and Walter Brewer catching. Y-12 bobbles gave the ORNL team a number of their runs but F. A. Dodd. the Dodgers hit well and ran bases

Manager Leon Coleman and his boys thank Y-12ers who have come out to see them play and

Attendance Standings Get Rio Reshuffling Confidential Changes Announced **Changes Announced**

Several Company organizational changes affecting the K-25 and Paducah plants of Carbide and Carbon Chemicals Company have been announced by Clark E. Carter, General Manager for Car-

bide's atomic energy work.

A. P. Huber has been appointed Superintendent of the K-25 plant, effective June 15. J. P. Murray has been appointed Superintendent of the Paducah plant, effective June 1. W. B. Humes, who has been Superintendent at K-25, has been named Superintendent of Production at bot

ducah. Other organ made have Syl Engineer; and the Superinte

Two new divisions also have been created at K-25, a chemical division and production division. They will replace the present operations division. J. A. Marshall will be Superintendent of the chemical division and M. F. Schwenn Superintendent of the production di-

ACSers Will Defy Weather At Picnic Set For June 23

The many Y-12 members of the East Tennessee Section of the American Chemical Society vow to take no chances at the annual picnic of the group scheduled for Saturday, June 23, at Big Ridge

Remembering the drenching handed out by an unkind weather on the last two previous picnics, the Y-12ers and other members of the ACS are planning to take umbrellas, rubber boots and raincoats along on the outing. Shelter will be provided for the food tables so that the viands will not become soggy in case of another downpour.

E. Wishhausen, cf the Y-12 Analytical Chemistry Division, is chairman of the committee on arrangements. He has sent out cards to all members notifying them of the picnic and asks that early return be made of the cards as notification that the member will at-

The section will provide the base of the picnic lunch of meat, bread and soft drinks. Fancy trimmings will be brought along by the members. Favors will be provided for the many youngsters expected to attend and the grown ups will enjoy themselves with games, swimming, boating and other usual picnic activities.

Atomic Reactor At Arco To Start Operating Soon

Atomic Energy Commissioner Gordon Deangiacoerding to the Washington Star has reported that an atomic reactor will start operating "in the late spring or early summer" at the AEC testing station near Arco. New election tric power wil be turned out at the station sufficient to furnish the entire needs of a modern 50
